

approved methods, *e.g.*, computer, automated telephone service, or paper forms. You may also reinvest the proceeds of maturing securities into new securities by completing the appropriate transaction request on time.

(2) If you are submitting bids by paper form, you must use forms authorized by the Bureau of the Public Debt and provide the requested information. We have the option of accepting or rejecting bids on any other form. You are responsible for ensuring that we receive bids in paper form on time. A competitive bid is on time if we receive it prior to the deadline for the receipt of competitive bids. A noncompetitive bid is on time if:

(i) we receive it on or before the issue date, and

(ii) the envelope it arrived in bears evidence, such as a U.S. Postal Service cancellation, that it was mailed prior to the auction date.

(3) If you are submitting a bid by computer or automated telephone service you must be an established TreasuryDirect account holder with a Taxpayer Identification Number. You may not submit a competitive bid by computer or telephone.

(4) In contingency situations, such as a power outage, we may accept bids by a telephone call to designated Treasury employees if you submit them prior to the relevant bidding deadline and you are an established TreasuryDirect account holder.

§ 356.12 What are the different types of bids and do they have specific requirements or restrictions?

(a) *General.* All bids must state the par amount of securities bid for and must equal or exceed the minimum to bid amount stated in the auction announcement. Bids in larger amounts must be in the multiple stated in the auction announcement.

(b) *Noncompetitive bids.* (1) *Maximum bid.* You may not bid noncompetitively for more than \$5 million. The maximum bid limitation does not apply if you are bidding solely through a TreasuryDirect reinvestment request. A request for reinvestment of securities maturing in TreasuryDirect is a noncompetitive bid.

(2) *Additional restrictions.* You may not bid noncompetitively in an auction in which you are bidding competitively. You may not bid noncompetitively if, in the security being auctioned, you hold a position in when-issued trading or in futures or forward contracts at any time between the date of the auction announcement and the time we announce the auction results. During this same timeframe, a noncompetitive bidder may not enter into any agreement to purchase or sell or otherwise dispose of the securities it is acquiring in the auction. For this paragraph, futures contracts include those:

(i) That require delivery of the specific security being auctioned;

(ii) For which the security being auctioned is one of several securities that may be delivered; or

(iii) That are cash-settled.

(c) *Competitive bids.*—(1) *Bid format.* (i) *Treasury bills.* A competitive bid must show the discount rate bid, expressed with three decimals in .005 increments. The third decimal must be either a zero or a five, for example, 5.320 or 5.325. We will treat any missing decimals as zero, for example, a bid of 5.32 will be treated as 5.320.

(ii) *Treasury fixed-principal securities.* A competitive bid must show the yield bid, expressed with three decimals, for example, 4.170. We will treat any missing decimals as zero, for example, a bid of 4.1 will be treated as 4.100.

(iii) *Treasury inflation-protected securities.* A competitive bid must show the real yield bid, expressed with three decimals, for example, 3.070. We will treat any missing decimals as zero, for example, a bid of 3 will be treated as 3.000. The real yield may be a positive number, a negative number, or zero.

(2) *Maximum recognized bid.* There is no limit on the maximum dollar amount that you may bid for competitively, either at a single yield or discount rate, or at different yields or discount rates. However, a competitive bid at a single yield or discount rate that exceeds 35 percent of the offering amount will be reduced to that amount. For example, if the offering amount is \$10 billion, the maximum bid amount we will recognize at any one yield or discount rate from any bidder

Fiscal Service, Treasury

§ 356.13

is \$3.5 billion. (See § 356.22 for award limitations.)

(3) *Additional restriction.* You may not bid competitively in an auction in which you are bidding noncompetitively.

[69 FR 45202, July 28, 2004, as amended at 69 FR 53621, Sept. 2, 2004]

§ 356.13 When must I report my net long position and how do I calculate it?

(a) *Net long position reporting threshold.* (1) If you are bidding competitively

If . . .	And if . . .	Then . . .
(i) the total of your bids and your net long position in the security being auctioned equals or exceeds the reporting threshold.		you must report your net long position (which does not include your bids).
(ii) the total of your bids in the auction equals or exceeds the reporting threshold.	you have no position or a net short position in the security being auctioned.	you must report a zero.
(iii) the total of your bids and your net long position in the security being auctioned is less than the reporting threshold.		you may either report nothing (leave the field blank) or report your net long position.

(2) Also, if you have more than one bid in an auction and you must report either your net long position or a zero, you must report that figure only once. Finally, if you are a customer and must report either your net long position or a zero, you must report that figure through only one depository institution or dealer. (See § 356.14(d).)

(b) *“As of” time for calculating net long position.* You must calculate your net long position as of one half-hour prior to the closing time for receipt of competitive bids.

(c) *Components of the net long position.* Except as modified in paragraph (d) of this section, your net long position is the sum total of the par amounts of:

(1) Your holdings of outstanding securities with the same CUSIP number as the security being auctioned;

(2) Your holdings of STRIPS principal components of the security being auctioned, and;

(3) Your positions, in the security being auctioned, in:

(i) When-issued trading, including when-issued trading positions of the STRIPS principal components;

(ii) Futures contracts that require delivery of the specific security being auctioned (but not futures contracts

in an auction, you must report your net long position when the total of your bids plus your net long position in the security being auctioned equals or exceeds the net long position reporting threshold (See table.). We will specify this threshold in the auction announcement for each security (See § 356.10.). The threshold is typically 35 percent of the offering amount, but we may state a different threshold in the auction announcement. To see whether you must report your net long position, follow this table:

for which the security being auctioned is one of several securities that may be delivered, and not futures contracts that are cash-settled); and

(iii) Forward contracts that require delivery of the specific security being auctioned or of the STRIPS principal component of that security.

(d) *Calculating the net long position in a reopening.* In a reopening (additional issue) of an outstanding security, you may subtract the exclusion amount stated in the auction announcement from:

(1) Your holdings of the outstanding securities (paragraph (c)(1) of this section) combined with

(2) Your holdings of STRIPS principal components of the security being auctioned (paragraph (c)(2) of this section). We will specify the amount of holdings that you may exclude from the net long position calculation in the auction announcement. You may not take the exclusion if your combined holdings are zero or less. The exclusion is optional, but if you take the exclusion, you must include any holdings that exceed the exclusion amount in calculating your net long position. If the exclusion amount is greater than your combined holdings (paragraphs
